-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3634

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lai et al in view of Susoev. Lai et al disclose a blind comprising a headrail 10, a bottom rail 101, a plurality of slats 11 supported by ladder tapes, lift cord 122 having a knot 23, 23E, and a lift lock 121. While Lai et al do not specifically set forth the knot as having a dimension greater than the gate of the lift lock, Susoev discloses a blind comprising lift cords 44 having a knot 48 of a dimension greater than the ring 46 so as to prevent it from being pulled therethrough, wherein, to incorporate this teaching into the lift cord of Lai et al for the purpose of preventing the lift cord from being pulled through the lift lock would have been obvious to one of ordinary skill in the art. As to claims 3 and 4, the claimed knot is nothing more than an obvious variation of the knots as disclosed by Lai et al and Susoev.

2. The following prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Palmer et al, Altman.
